

JÓVENES CON ENTREGA

Program Overview

Jóvenes con Entrega, is an initiative by IYF, sponsored by FedEx since 2018, aims to champion diversity, equity, and inclusion (DE&I) in the logistics industry while equipping young people with sustainable logistics management skills. It targets students from technical schools, cultivating in them both high-demand specialized skills and essential socio-emotional competencies. This empowers them to thrive in both traditional logistics and emerging fields that contribute to reducing greenhouse gas emissions (GHG). These contributions include managing electric distribution networks, leveraging automation, machine learning, and remote sensing technologies.

Implementation Phase

2023 -2024

Target

We will cater to 15,000 young people from strategically states with a high demand for well-trained individuals in logistics.

Locations

Sponsored by **FedEx**

Key Program Elements

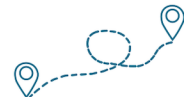

Professional Internships

Soft Skills

Technical Training

A clear path towards a career in the logistics sector.

- Greenhouse Gas Emission Reduction Focus
- Logistical Procedure Management
- Distribution Network Design
- Logistical Project Management

Implementation

- Teacher training.
- Curricular development and updating hand in hand with experts.
- Teaching materials.
- Support for job placement.

Transformar vidas, juntos.
